## **COVID-19 Stimulus Benefits for Dairy Industry Farmers and Small Businesses Webinar**

The Paycheck Protection Program is a federal stimulus benefit available for small businesses and is open to dairy industry farms and business owners affected by the novel Coronavirus. Many dairy farmers and ag-related business owners are still working every day and are not aware that this stimulus may apply to them, but it likely does. Join us for the **COVID-19 Stimulus Benefits for Dairy Industry Farmers and Small Businesses Webinar** and learn if this applies to you and your business.

**Don't be fooled by the title!** The Penn State Extension Renewable Natural Resources team invites you to this invaluable, no-cost webinar about the Paycheck Protection Program, which is a federal stimulus benefit available for small businesses affected by COVID-19.

The information that will be presented is pertinent to all small businesses including loggers, sawmills, foresters, etc. If you own or run a business with less than 500 people, this webinar will provide information needed to make informed decisions about the program.

We hope you can join us!

**When**

Fri., Apr. 10, 2020  
(12:00 PM - 12:45 PM)
