CONESTOGA TO ROYALTON (LINE 11) TRANSMISSION LINE REPLACEMENT PROJECT

What is happening?

The purpose of this public meeting is to provide you with updates on the proposed replacement of the deteriorating electrical transmission line and support structures along the freight rail line from Conestoga to Royalton, PA. The team will describe the project scope, regulatory processes (NEPA/Section 106/permitting), and next steps. There will be opportunity for review and comment on the project's temporary effect on parks and recreation areas, per Section 4(f) of the U.S. Department of Transportation Act of 1966.

Why is it important?

This project will ensure reliable transmission of power to Amtrak's electrified passenger rail system. Comments and questions from the public are welcome.

When: Wednesday, May 4th, 2022
6:00 PM EST

Where: Microsoft Teams
(Virtual)
