

The PA CDFI Network has announced that the second grant application window for the COVID-19 Relief PA Statewide Small Business Assistance program will open at 9:00 am on August 10th and will remain open for 15 business days, closing at 11:59 pm on August 28th.

Please note that in order to get funds to businesses in need as quickly as possible, the second application window will be the final opportunity to apply for the program.

If you applied during the first application window, you should receive notification of your application status by August 10th. You do NOT need to reapply in the second round. Qualified applications will be automatically rolled over into the next funding round for consideration.

Learn more about this opportunity at pabusinessgrants.com.
