### **REGULAR MEETING:**

**Citizen's Input** – None

### **Approval of Minutes** – January 4, 2016

Mr. Kopp motioned to approve the minutes as presented. Mr. Geyer seconded. Motion approved.

### **Golf Course Design Review**

David Spaulding, Deputy Engineer of Harrisburg International Airport presented their vision for the harvest of trees to remove them from the 40% glide slope of airplanes and for the restoration of the golf course. Kelly Duran, Golf Course Designer, presented his plans for the golf course restoration including plantings, additions of tees and bunkers and storm water controls. Mike Johnson and Sam Risteff indicated that they believe the improvements will make Sunset Golf Course better than it currently is. There was also discussion of additions to the irrigation system to aid in the watering of the new plantings and that it will take approximately five years for the plantings to mature.

The board asked questions relative to the design, impact on sales, legal protections for the township and irrigation. Mark Stewart will work with counsel from HIA relative to an acceptable agreement for golf course restoration and maintenance.

After the board concluded discussion with the representatives of HIA a time schedule for the project was presented by David Spaulding.

Mr. Kopp motioned to adjourn at 9:00pm, Mr. Geyer seconded. Motion approved.
